

 Politeknik Negeri Bandung	General English 2	
	Lecturer: Muhammad Yazidus Syukri, S.S., M.Pd.	Skill focus: Reading
	Duration: 4 x 50"	Topic 1: Previewing and Predicting
Equipment:	Whiteboard, board marker, handout, LDC projector, laptop, screen	
Objectives:	After completing this lesson, you will be able to: 1. Find out what you are going to be reading before you actually read. 2. Get an idea of what you will find in the text. 3. Begin to make a connection/relation between the preview and the text in your brain.	
Student's name:		Date: February 2022

Previewing for a better comprehension

Previewing before you read can make a big difference in how well you understand what you read. Previewing is something you already do in your daily life. For example, when you receive a letter, you usually look first at the written address or the stamps to find out where it came from and who sent it. Then you make some guesses about what it will be about. When you read the newspaper or a magazine, you often look at the headline and the pictures to get some ideas of what the articles are about so you can decide which ones interest you.

By previewing for just a few seconds, you can pick up a great deal of information about the text you are going to read. You can preview any kinds of texts, including pleasure reading books, magazine articles, tests, and text books assignments. The following exercises will give you practice previewing.

In this work provide a lot of examples in different fields of chemical engineering and how to design accurate solutions by using MATLAB software. Chapter 1 provides 24 examples to undergraduate students how to enter and use Matlab software to solve the problems. Chapter 2 provides 3 examples in fluid flow includes different problems and how to solve these problems by programming. Chapter 3 provides 8 examples in heat transfer how to solve these problems by programming. Chapter 4 provides 22 examples in modeling, thermodynamic, material balance and chemical reaction design includes different problems with different applications and how to solve these problems by programming.

It is important when you read a book or parts of it to look first before you start reading. This is called previewing. Previewing gives you a general idea about the book and its content. There are several aspects of a book that you can preview. You may preview:

1. **The Book Cover**, front and back. The front usually contains the TITLE, name of the AUTHOR / S, name of Publisher, and ILLUSTRATIONS. The back cover often displays the author's pictures with his/hers/their biographical information and qualifications. Sometimes in the back cover you can read comments and summaries of the content.
2. **The Inside Cover**. This part of a book usually contains information on copyrights of the author/s, year of publication, edition, number of cataloging, editor or translator, etc. It is important that you check the date of publication when you preview, if a book is unrevised for a relatively long time, the content may be outdated. Study publishing history, number of copies, ISBN, dates of reprint, revisions, etc.
3. **Introduction, Preface, Foreword**. A quick check on this information will give you a general idea of what the writer/s plan the book.
4. **Table of Contents**. This is the skeletal outline of the content in the book. it will also give you a general idea of what aspects, ideas, and subtopics are presented.
5. **Layout and Typography**. Thumb through the book. At the layout and typography of the book. Note any pictures, figures, graphs, cartoons, diagrams, etc. They will help you in giving information of what the book is about.
6. **Index, Bibliography, Glossary, and Summary**. The information from these parts of the book is important in deciding whether the book matches or not your purpose and the field of your study, because they contain key words and list publications that are closely related to the content in the book.

From this process of previewing you evaluate the book's value in relation to your purposes. If you decide that the book does not contain the information you need, then select another book and do the whole process again. It may be time-consuming and needs a lot of effort, but once you are familiar with the process then you become skillful in it. Previewing is one of the most important reading skills. You should preview before start reading, in that way you will understand much more what you read.

Task 1

Answer the following questions

- a. Where you can find the surname / last name of the author/s in a book?
- b. In which part of a book can you find the writer's purpose and description of how the content is presented?
- c. Why is necessary to check on the date of printing and revisions?
- d. Mention the aspects in a book, from the front to the back of a book that you need to check and look when you are previewing!
- e. Why is previewing important in reading?

Task 2

Previewing using titles and headings

Here are titles of books and the possible contents. Read and match them.

Titles

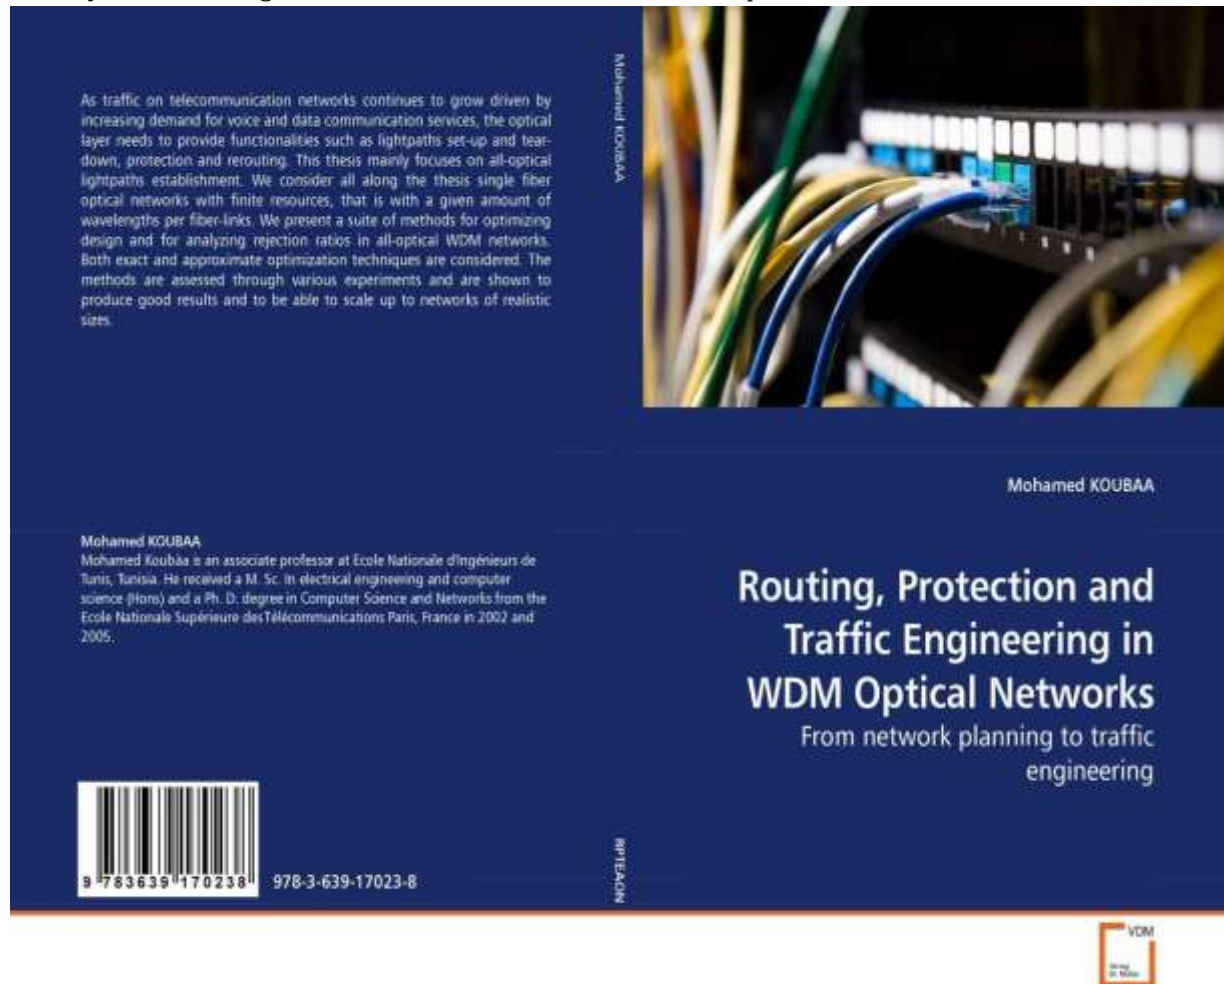

1. The Internet : Instant Reference
2. Scientific Method
3. Social Psychology
4. Fundamentals of Accounting
5. Understanding Biotechnology

Contents

- a. Inter-group Relations
- b. Getting Message Through
- c. Artificial Human Organs
- d. Research
- e. Fixed Assets

Task 3

Identify this following book cover below and then answer the questions

- What is the title of the above book?
- Who is the author?
- For whom this book is suitable for?
- Who is the publisher?
- Does the picture represent the content of the book?
- What kinds of benefits readers may get after reading the book?
- At least how many questions are available in that book?
- What is the International Standard Book Number of the book?
- Why do some engineers need this book?
- What does the term “WDM” mean in that book?

Task 4

Read the following titles or headings and write down the likely content of each book or article. Compare your work with your friend's.

- “ROBOTICS” Fundamental Concepts and Analysis”
- “Alternative Energy Sources and Power Plants”
- “How to Perform Well in An Interview”
- “Handbook of Nanoscience, Engineering, and Technology”

5. “Financial Accounting Standards Board: Nonprofit organization, generally Accepted Accounting Principles (United States of America)”
 6. “Linguistics Manifesto: Universal Language and the Super Unified Linguistic Theory”
-

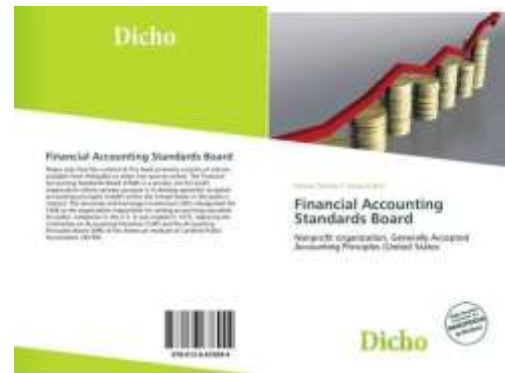

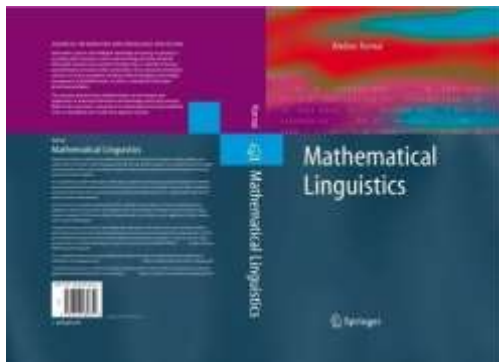

Task 5

Which of the following book would you consult if you were studying how new technology influence human behavior? *Study the subtitles. Then, give reasons for your choice.*

- a. Violence. The Effect of Hi-Tech Media
- b. Internet. The Way to Create Webster
- c. Living in Foreign Countries. Problem with the Cultures
- d. Modern Technology. Several Discoveries
- e. Computers for the Workers. How do they affect you?

The reasons:

Which of the following book cover would you consult if you an accounting student

- ❖ How to preview a short passage:
1. Read the title.
 2. Look at the pictures (if there are any)
 3. Read the first few sentences in the first paragraph
 4. Read the first line of the other paragraphs.
 5. Read the last sentence of the last paragraph
 6. Watch for names, dates, and numbers.

Previewing is one of the most important reading skills. You should always preview before you read. You will find that you understand more if you preview first.

Predicting to know the content

Predicting

To predict means to tell what will happen. You will be a better reader if you predict. As you read. Guess what will happen. You can use words and pictures to help you predict. Work with another student.

When you make a prediction from the title, author, publisher, prices, printed and size of the paper, number of pages, bibliography, index, catalog, table of content or a book description will help you to best describe what kinds of book you are going to read. It is the best practice when you are visiting to college library, online book shopping or e-book/book-stores before actually you will decide what the book is fit on you then you decide to buy it.

Guidelines for previewing Longer Passages

- ✓ Preview for only a few seconds. For example, for one page of text, you should spend no more than one minute previewing.
- ✓ Read the title. Does it tell you what the passage about? Do you know anything about this subject?
- ✓ Decide what kind of text it is. Is it an essay, an argument, a story, an explanation? What can you expect from this kind of text?
- ✓ Look at the length and organization of the passage. It is divided into parts? Do the parts have subtitles what information do they give you?
- ✓ Notice is there are maps, pictures, charts, names, dates, or numbers in the passages.
- ✓ Look at the first line or the sentences of each paragraph and the last sentence of the final paragraph. These sections often contain important information.

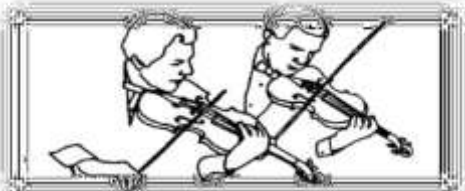

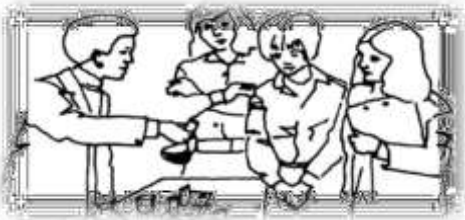

Terms in Previewing & Predicting

1. **author** [noun] writer: somebody who writes a book or other text such as a literary work or a report
2. **bibliography** [noun] list of publications, or book history, book sources: a list of books and articles consulted
3. **catalog** [noun] a list of items in a set or collection such as the books holdings in a library, usually including details of where to find them and arranged according to subject, title, or author
4. **footnote** [noun] informational at foot of page: a note at the bottom of a page, giving further information about something mentioned in the text above.
5. **glossary** [noun] alphabetical list of terms: an alphabetical collection of specialist terms and their meaning, usually in the form of an appendix to a book
6. **index** [noun] alphabetical reference list: an alphabetical list of topics, people, or titles, giving the location of where they are mentioned in a text
7. **publisher** [noun] owner of publishing business or publishing company or person: a company or a person that publishes products such as book, journals or software
8. **title** [noun] name: a name that identifies a book, movie, play, painting, musical composition, or other literary or artistic work
9. **ISBN** [abbreviation] publishing: International Standard Book Number
10. **ISSN** [abbreviation] Publishing: International Standard Serial Number

Task 6 Using Pictures to predict
find the right story for each picture

Pictures	Names of Story
1. 	a. Women in science
2. 	b. How American shop for food
3. 	c. How beavers build their homes
4. 	d. When your child goes to the Dentist
5. 	e. The Violin in the Symphony Orchestra

Predicting is one of the most important reading skills. You should always predict after you read first line of the title or some clues. You will find that you understand more if you predict first.

Task 7 Guess what will happen next

Look at each picture. Predict what will happen next. Find the best sentence for each picture. Work with another student.

Pictures	What Will Happen Next?
1. 	a. Henry will play with his friends all day OR b. Henry will not go to school today
2. 	a. This family will meet a friend at the airport OR b. This family will buy tickets
3. 	a. They will stop and rest OR b. They will go faster
4. 	a. Mary will give the cat a nice dinner OR b. Mary will put the cat outdoors

Task 8

Will you find these ideas in the story? Check (✓) Yes or No

Boston: A Good Place to Live	Yes (✓)	No (✓)
1. There are many poor people in Boston		
2. The spring flowers are beautiful in Boston		
3. Jobs are many universities in Boston		
4. Jobs are hard to find in the Boston area		
5. Winters in Boston are cold and snowy		
6. Boston City Hall is very beautiful		
7. There are many famous old buildings in downtown Boston		
8. People are not very friendly in Boston		
9. The Charles River flows by the city. People like to walk along the river in the parks.		
10. Apartments are very expensive and hard to find.		

Task 9

Will you find these ideas in the story? Check (✓) Yes or No

How They Can Help You	Yes (✓)	No (✓)
1. Dentists hurt your teeth		
2. Dentists have many new machines		
3. Some dentists play the radio for their patients		
4. Some dentists will pull out all your teeth		
5. A nurse cleans your teeth at the dentist's office		
6. The dentist's office is very comfortable		
7. Dentists want everyone to have healthy teeth		
8. A visit to the dentist is too expensive		
9. The dentist may x-ray your teeth		
10. Modern dentists must study for many years		

Predicting what is the next idea

Example

Yesterday, there was a big snowstorm in Boston.

Which idea comes next?

- a. it was a warm, sunny day
- b. it was very cold, but the snow on the trees looked beautiful.
- c. Only one inch of snow fell.

The correct answer is b.

- a. is not correct. It is not warm and sunny in a snowstorm
- c. is not correct. In a big snowstorm, many inches of snowfall

Task 10 Predicting the Next Idea

Read the sentence, and then tell which idea comes next.

- 1. One hundred years ago, the British Empire was very large. The British sent ships and soldiers to North and South America, Africa, and Asia. They were British ships all around the world. The British were proud of this. They liked to say, "The sun never sets"
 - a. In England."
 - b. On the far side of the world."
 - c. In our hearts."
 - d. On the British Empire."
- 2. In some cowboy movies, the cowboys are all either good or bad. The good cowboys are great men who help everyone. The bad cowboys are robbers and killers. But in real life, most cowboys were just like all other men – not all good or bad. The idea of cowboys we get from the movie is
 - a. Very true
 - b. Not true
 - c. Good
 - d. Helpful
- 3. On average, Americans move to a new home every seven years. However, some Americans never move. They live all lives in the same place. So there must be other Americans who
 - a. Move to new homes
 - b. Never move
 - c. Move very often
 - d. Move every seven years
- 4. Some people say that it's harder to learn things when you get older. They say your brain does not work as quickly. That is why they sometimes say, "You can't teach"
 - a. A young dog anything."
 - b. A young dog new tricks."
 - c. An old dog new tricks."
 - d. A dog when you are young."

5. The Potato Famine happened in Ireland in the 1840's. The Irish people were poor. They could not buy meat or bread because they were too expensive. They ate mostly potatoes. Then a disease killed many of the potato plants. With no potatoes to eat, the people
- a. Were happier
 - b. Died of hunger
 - c. Ate meat instead
 - d. Were ill

Task 11 *Predicting the next Idea*

Read the sentence. Then tell which idea comes next. Work with another student.

1. There were many good shown on TV last night. The Smith family stayed home.
 - a. They turned off the TV and went to bed early.
 - b. The only interesting show was about traveling by bicycle.
 - c. They saw a play, a music show, and the news.
2. John and Alice Babson are not happy with the school in their town.
 - a. Their children love to go to school
 - b. The classes are very crowded
 - c. It is a beautiful building
3. The roads were covered with ice and were very dangerous today
 - a. Sam drove home very quickly
 - b. Sam took a long time to drive home
 - c. Sam enjoyed driving home.
4. Boston is a nice place to live in, but New York City is more fun
 - a. New York is a very dangerous city
 - b. There are many interesting things to do in New York
 - c. There are no good restaurants in New York
5. Fly Happy Time Airlines! Take an exciting trip to Holiday Island.
 - a. This trip is very expensive
 - b. Holiday island has warm, sunny weather
 - c. Happy Time Airlines is never on time
6. Alex had trouble falling asleep last night. He was awake until 3 a.m.
 - a. This morning, he feels rested and ready to work
 - b. This morning, he is very hungry
 - c. This morning, he feels very tired.
7. Dr. Hammond was busy with his patients all day. He did not have time for lunch.
 - a. He may not be hungry at dinner time
 - b. He had a very easy day
 - c. He will be very hungry at dinner time
8. Judy and Alan moved to a new apartment near the university
 - a. Now they need a car to drive to class
 - b. Now they can walk to class every day
 - c. Now they will not be near the university library
9. Max works all day in a shoe store. At night, he takes business classes at the university
 - a. Max wants to have his own business some day
 - b. Max has lots of free time
 - c. Max is not very busy
10. "Eat at Joe's Dinner! We serve breakfast from 6 to 10!"
 - a. No one likes the breakfasts at Joe's!
 - b. And the breakfast costs only \$1.00!
 - c. The food is cold and the service is slow!

Task 12 More Practice

Read the following text then predict what the books are about. Give evidence to your answer.

1. Although researchers have formally discovered and named language learning strategies only recently, such strategies have actually been used for thousands of years. One well-known example is the mnemonic or memory devices used in ancient times to help story teller to remember their lines. Throughout history the best language practice techniques to analytic, rule-based strategies.

2. Rupert Bear woke one morning feeling in just the mood for an adventure. So after breakfast he asked his mother if he could spend the day in the hills. Mrs. Bear wasn't very sure at first, but in the end she agreed. "Now, remember to keep well wrapped," she said, tying Rupert's scarf round his neck. "We don't want you to catch a cold, do we?"

3. As a foreman Taylor soon realized that under the existing system if initiative and incentive the greater part of the responsibility for getting the work done is left to the workers, whereas he believed that all responsibility for planning and arranging work should rest with the management, leaving the doing of it to the worker. This involved a complete change in attitude, a „mental revolution“, on the part of both workers and managers

4. As in other exercises, do not practice it when you suffer an acute illness like influenza or diarrhea. It is much better and certainly safer to resume practice after your recovery. Although you do not require any special equipment, you should always use a pair of flat-soled shoes during practice to avoid injury to your soles. A soft, loose, sweat-absorbing shirt and a loose, baggy pants will be an asset as they permit free movement.

5. What makes a stew? Technically, stewing is a method of simmering meats (or fish or fowl), usually cut in small chunks in liquid which may be water, wine, beer or broth. In the old days stews were kept at the back of the stove, simmering ever slowly and changing somewhat from day to day depending upon whatever garden or barnyard provided.

6. Party power was further eroded with the emergence of the concept that democracy was best served not by party representation but by representation of functional social group. In the 1960 parliament, 129 members were appointed to represent the parties,...

REMEMBER: always *preview* and *predict* before you Read!!
